Model No. ▶ UV3200

Description ▶ Electric Scarifier

CONCEPT AND MAIN APPLICATIONS

Model UV3200 is the first scarifier from Makita.
Scarifier is a garden tool that aerates soil, cuts out thatch* or rakes leaves and moss to encourage healthy lawn growth.
* Thatch is a dense layer of living and dead organic matter on the soil surface, which prevents soil from absorbing air, moisture or nutrients.

The main features of Model UV3200 are:

- 5 step working height adjustment
- Handle bar with soft grip
